Objective

Aspiring Software Developer with a strong foundation in Python and Data Structures & Algorithms. Seeking an opportunity to apply my skills in real-world projects and contribute to organizational growth.

Education Bachelor of Computer Applications (BCA)
L.N Mishra College of Business Management
Final Year | 75%

Skills

- Python
- Data Structures & Algorithms (Basic)
- Git & GitHub
- HTML, CSS

Projects Student Management System (Python Project)

- Developed a Python-based application to manage student records
- Implemented file handling for persistent data storage
- Features include add, delete, search, and display operations
- Designed menu-driven interface for user interaction
- Project link - https://github.com/manas2801/student-manager

---

Library Management System

- Designed a system to manage book records and user data
- Implemented functionalities like issue, return, and search books
- Applied structured programming concepts using Python
- Project link -https://github.com/manas2801/library-management-systempython

---

Attendance Web Application

- Built a web-based application to track student attendance
- Implemented user interaction and basic data handling
- Demonstrated understanding of web development concepts
- Project link -https://github.com/manas2801/attendance-web-app

---

Portfolio Website

- Created a personal portfolio website to showcase projects
- Designed responsive and user-friendly interface
- Used HTML and CSS for front-end development
- Project link -https://github.com/manas2801/manas2801.github.portfolio

---

Certifications

- TCS iON Career Edge – Young Professional
- Web Development Certification – Udemy
- Data Science Using Python – NPTEL

Strengths

- Quick learner and adaptable
- Strong problem-solving mindset
- Consistent and disciplined in learning

Declaration

I hereby declare that the above information is true to the best of my knowledge.
